

Two Sets of FAQs on Church Building Expansion

June 11, 2010

The attached two documents, in the format of FAQs (frequently asked questions), are offered to provide additional information about the church building expansion re-start. They are supplements to the spiritual development that is being addressed from the pulpit with a mini-series of messages to build up the faith and unity of the Congregation. In parallel the architectural firm, McClure Hopkins Architects, PA and the engineering firm Alpha & Omega Group are readying the architectural drawings to a point such that the Congregation will be asked to affirm the plans in order to continue the project to produce the construction drawings necessary for Town of Cary approval.

Please read the two sets of FAQs, for they provide helpful information about where we are in the expansion effort.

It is planned that persons from the Joint Board and CBEC (Church Building Expansion Committee) will be reaching out to the Church community to provide more details of the building expansion going forward. I trust the communications will be open and mutually beneficial to everyone. Conversely, please seek out one or more of these persons to ask specific questions that you may have.

Thank you.

Respectfully and on behalf of the JB and CBEC,

Don Hong
Chairman, CBEC

CBEC members: Paul Chan, King Choy, Don Hong, Iwan Kartawira, and YP Lee
